

What people are saying about John Bonifaz...

“I strongly support John Bonifaz for Secretary of State of Massachusetts. John is a proven voting rights leader who will bring courage and conviction to safeguarding the integrity of our electoral process. With John as our Secretary of State, Massachusetts will be in the vanguard in making our democracy real for all of us.”

~*Felix Arroyo, Boston City Councilor At-Large*

“John has been at the forefront in the ongoing struggle for our democracy here at home. I can think of no better candidate for Secretary of State than John Bonifaz. He will make Massachusetts and the country proud.”

~*Congressman Jesse Jackson, Jr.*

“Massachusetts deserves a strong, proven leader like John Bonifaz. Our country needs to elect more principled progressive candidates like him.”

~*Congressman John Conyers, Jr.*

“We have chosen John as one of only 15 candidates in the country we will be endorsing and working to elect this year. As Massachusetts Secretary of State, John will provide an inspirational model for other elected leaders that want to make it easier for voters to participate in our democracy and reduce the influence of special interest money in government.”

In the fight to protect voting rights and promote participation in elections, few people can match the experience of John Bonifaz. In 1994, he founded the National Voting Rights Institute, an organization that has been at the forefront of key voting rights struggles facing the nation today. Now, John Bonifaz wants to continue that work as Secretary of the Commonwealth, the office charged with overseeing elections in Massachusetts.

John's commitment to democracy and fairness began at an early age. As a college student, he registered thousands of voters. As a law student, he was a leader in the fight to diversify Harvard's faculty. As an attorney, John has held large corporations accountable for their actions in international human rights and environmental law cases. As a critic of the Bush administration, he is a nationally recognized leader of the anti-war movement. In his fight for a more just society, John's work has always produced results.

As Secretary of the Commonwealth, John Bonifaz will stand up for the people of Massachusetts. He will promote voter participation, keep big corporations in check and make the office more accessible to ordinary citizens.

John Bonifaz
Democrat for Secretary
of the Commonwealth

I am running for Secretary of the Commonwealth to make Massachusetts a model for free and fair elections. As Secretary, I will advocate a new bill of rights—a Voters' Bill of Rights. I will make our government more accessible and our corporations more accountable.

Our campaign will be a grassroots effort, not one dominated by special interests or wealthy contributors. It will be a campaign for all of us—for our hopes, our dreams, and our vision for democracy.

*I hope you will join me in this movement
to make democracy real for everyone.*
